SERVING TISSUE

Made from Bamboo / Bagasse Pulp

Premium quality serving tissue.

Available in 3 Ply, 2 Ply qualities

Multiple custom sizes available
Natural Unbleached color.

ADVANTAGES

No Trees Are Cut

Normal Paper products contribute to deforestation. We use sustainable materials and upcycle them to prevent deforestation.

Natural Anti-Bacterial Properties

Bamboo has natural anti-bacterial properties making it ideal for such applications. Bamboo is also fast growing, consuming less resources, need no chemicals and renewable.

Sustainable & Non-Toxic

We ensure sustainability throughout the product life-cycle starting from plant, harvest, production and disposal. We do not use any toxic chemicals, we do not bleach to minimize chemicals and have a natural look for the papers.

Custom Packs

Compostable Packing material available.
